

NUMEN NAILS

A little magic. Made yours.

An enchanted world, grounded in personal care. A visual identity for the studio, the screen, and the small details clients take home.

Moonlight, with warmth.

The palette

Midnight plum
#211C29

Warm parchment
#F1E9DF

Soft gold
#D7BD8B

Wild lavender
#C4A0CE

Quiet mauve
#C2B5C6

The typography

Cormorant Garamond

Expressive headings, generous space, and a gentle editorial rhythm. Use for collection names, invitations, and memorable phrases.

Nunito

Clear, friendly supporting copy. Use for navigation, service details, instructions, and anything a client needs to read quickly.

The signature

A crescent and a small star. Keep the mark simple, with clear space on every side. Use gold on plum or plum on light backgrounds.

Personal. Curious. Lovely.

A voice that feels human

Use warm invitations and concrete details: "Let's make something lovely." "Bring your idea." "Made for your kind of magic." Keep booking instructions direct.

Photography comes first

Use the real collection photographs for nail designs. Keep color and texture honest. Enchanted scenery frames the work; it does not replace the work.

A small, useful system

The brand studio exports social posts, vertical stories, business cards, care cards, and packaging labels. The SVG crescent scales cleanly for digital or print use.

Before printing

The print collection uses a 0.125-inch bleed and a defined trim box. Card trim: 3.5 x 2 in. Care card: 4 x 6 in. Label: 4 x 3 in. Thank-you insert: 5 x 3 in. Print at actual size; ask your printer for a color proof and their preferred color conversion.

Keep it yours

Update prices through the owner desk once connected. Confirm contact and service information before a print run. The packaging art is a flat label, not a structural box dieline.
